Subject: Snake River Salmon

Dear General Strock,

It was with dismay that I learned of the problems being created for salmon on the Snake River by the dams that have been built by the Corps of Engineers. I am writing to ask that you remove those dams as soon as possible. Our wildlife has a hard enough time with all the pollutants and other environmental road blocks we humans put in their way. If we want to fish and eat fish, we at least should encourage them to breed, not make it as hard as possible for them. Thank you for your attention.

03 03 2000

Sincerely,

Jane Simon
